

Shriners Hospitals for Children™

Expanded Board Day will be held Thursday, September 17, 2009. This event also is a time to thank our Shriner Drivers for all of their hard work transporting patients from their home to the hospital. This day is open to the public and will give you an opportunity to meet with our Board of Governors and other staff members. The event will offer you the chance to learn more about the different orthopaedic and spinal cord injury programs in addition to recognizing our drivers and donors. Please make sure you RSVP to Stephanie Spagnola at 215-430-4178 or sspagnola@shrinenet.org.

The agenda is still subject to change but the general format is as follows:
